

# Lain-Dain Record Keeping System

The LAIN DAIN of money in kashmir occasions is a way of expressing love and support between families .

This system is observed during significant events such as weddings , housewarming , personal milestones etc.

## Motive:

Our objective with this project is to simplify the tracking and organisation of these cash exchanges.

# Understanding Lain-Dain

1

## Tradition

Lain-Dain involves cash exchanges during social functions.

2

## Occasions

These exchanges take place at weddings, births, festivals, and personal milestones.

3

## Purpose

The purpose of Lain-Dain is to show goodwill, respect, and blessings.

# Challenges in Lain-Dain

## Record management

Cash record is not preserved for long.

## Accessibility

Accessibility becomes difficult.

## Complexity

Multiple occasions make record-keeping difficult.

# Proposed Solution

## System Management Program

Log and track Lain-Dain records efficiently.

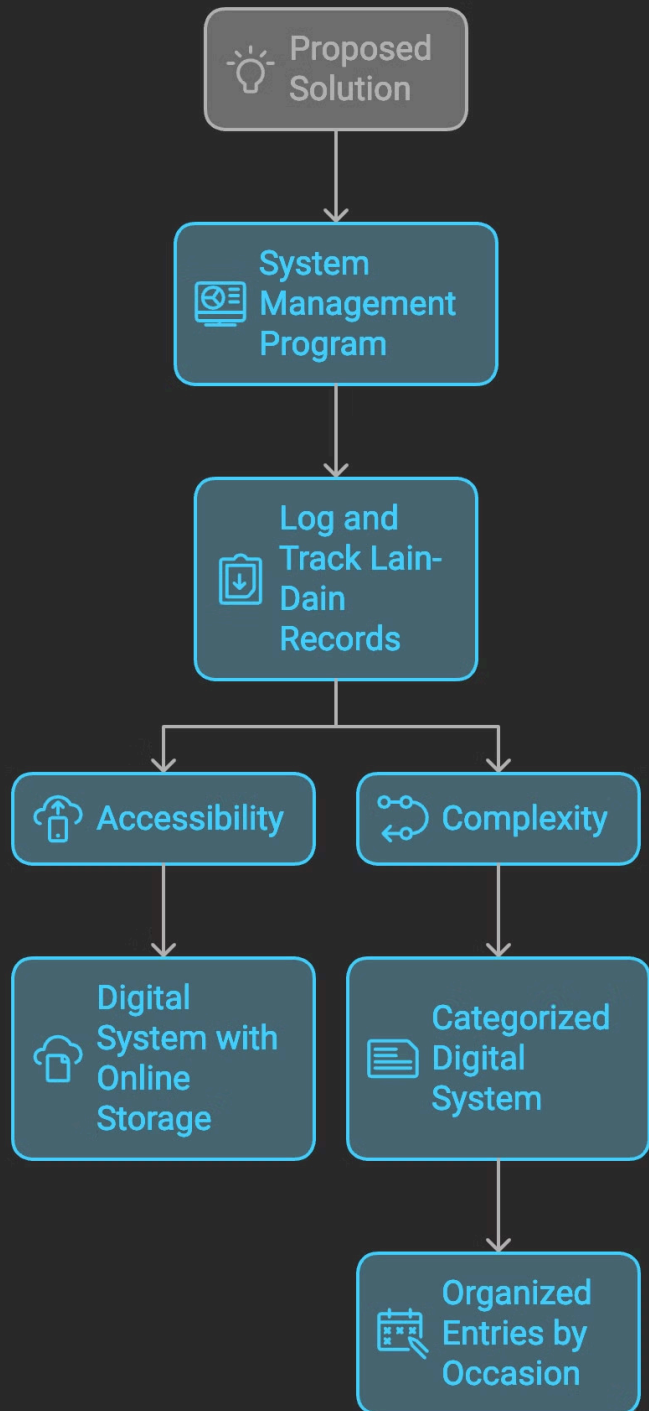

## Accessibility

Using a digital system with online storage can make records easily accessible from any device, anytime.

## Complexity

A categorized digital system can simplify record-keeping by organizing entries by occasion, making it easy to find and track exchanges for each specific event.

# System Benefits

Enhanced Organization

Centralized records for better management

Transparency

Clear, trackable records reduce misunderstandings

Cultural Preservation

Digitally preserves tradition while modernizing management

# System Workflow

1

## Login

Secure access to personal account.

2

## Dashboard

Overview of events and budgets.

3

## Add Transaction

Record new Lain-Dain exchanges.

4

## Generate Report

Create summaries of contributions and expenditures.

# Core Features

## User Authentication

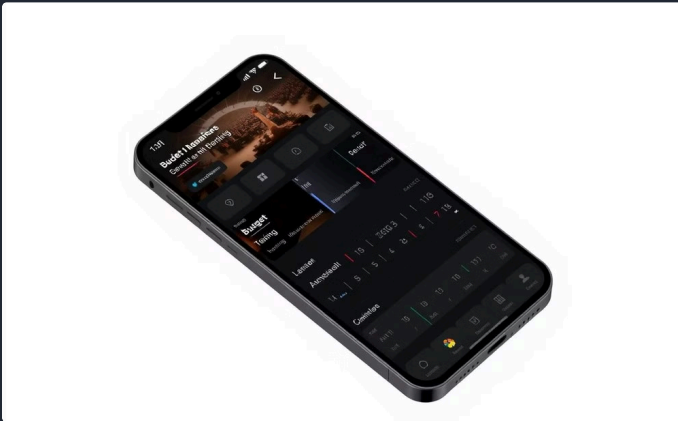

Secure access for authorized users only.

## Transaction Recording

Log cash exchanges by function and date.

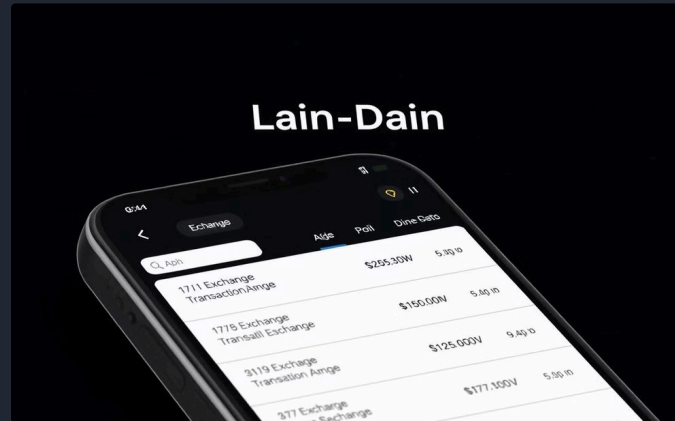

# User Interface Preview

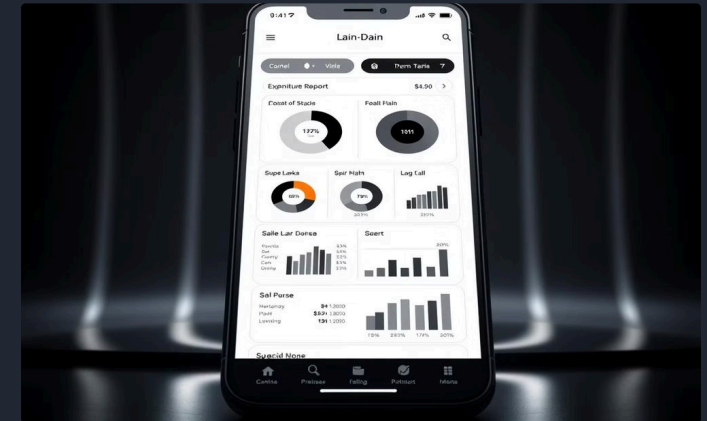

## Dashboard

Quick view of events and financial status.

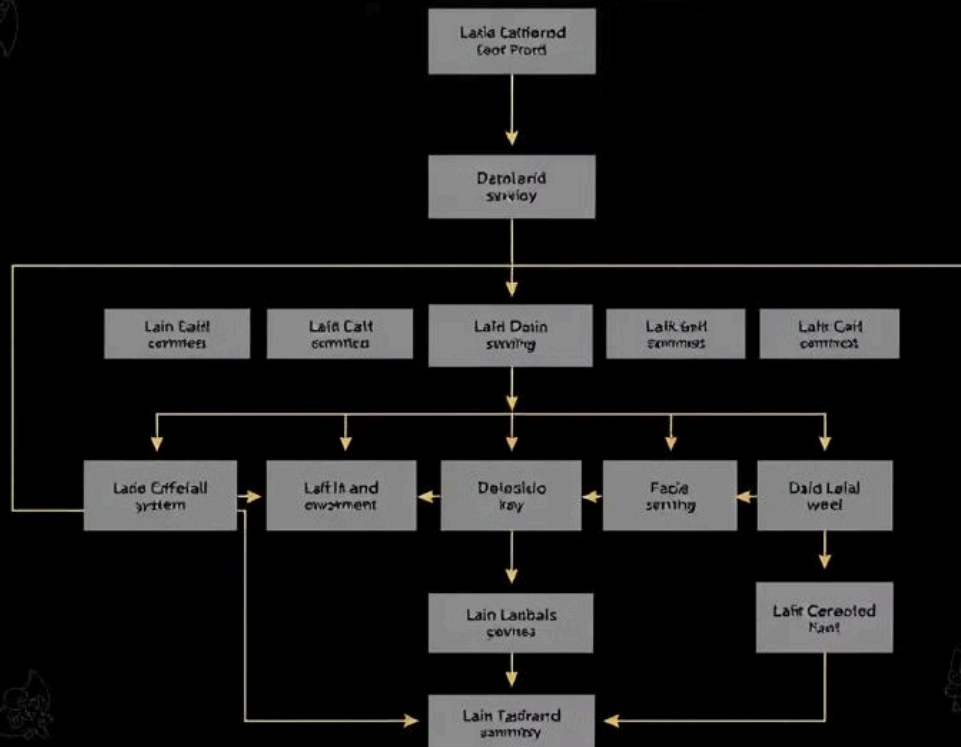

## Transaction Log

Comprehensive record of all Lain-Dain entries.

## Reports View

Visual summaries of financial activities.
